

Safety Response Committee Charge

The Safe Response Committee is charged with assessment and monitoring of campus conditions related to physical safety of members and visitors. In this context safety relates to issues such as physical access and use and fire safety. Examples of the domain of the Safety committee would be door lock and key policies, exit signage and access, fire and tornado safety awareness, development and implementation of drills. In addition the committee would be knowledgeable about issues related to potentially disruptive visitors and implement policies to assist in managing those situations.
